- TCP/IP
- DHCP
- VLAN
- SNMP
- GPON
- Server administration
- Network management
- PBX management

Summary

I am a graduate of the Telecommunications Engineering study program at VŠB-TUO with a strong technical background and a passion for innovation and modern technologies. I excel at learning quickly, adapting to new challenges, and working efficiently to solve technical problems. Thanks to continuous self-education, I am familiar with the latest developments in telecommunications and have practical experience in the field, which I transfer into real-world practice.

September 2019 - June 2020

Hobbies

I am a passionate athlete with a long-standing interest in various sports disciplines. I compete in table tennis, which helps me develop speed, strategic thinking, and concentration. In the past, I also played soccer, which gave me experience in teamwork and perseverance.

In addition to sports, I have a deep connection to music. In my free time, I play the accordion and piano. These activities are not only a source of joy and relaxation for me, but they also develop my creativity, sense of rhythm, and fine motor skills.
